London Borough of Lewisham

The asset transfer of the Forest Hill, Manor House and Torridon Road library buildings

A soft market testing exercise

Introduction

1. The London Borough of Lewisham is seeking input from the market to establish the best way of packaging and scoping a potential procurement opportunity for the asset transfer of the Forest Hill, Manor House and Torridon Road library buildings. We invite third party organisations in the public, commercial, or third sectors to express their initial interest in the transfer.

Please note that this notice is for the purpose of conducting a soft market testing exercise and a not a call for competition. It does not formally begin the procurement process or constitute any commitment by London Borough of Lewisham to undertake any procurement exercise.

2. As well as supporting the host organisation's business, the transfer of these assets will allow the extension of the Lewisham community library model to these buildings, transforming them into community venues that will continue to host library services.

Background to the buildings in brief

- 3. The Forest Hill and Torridon Road library buildings are stand-alone, substantial brick venues built over 100 years ago and are Grade 2 listed. The Manor House in Lee is a Georgian building with Grade 2* listing status.
- 4. All these buildings have been fully refurbished within the last 10 years. Some information is held about the current condition of the buildings. A full condition survey will be prepared for each building for the formal tender process.
- 5. Manor House and Torridon Road buildings currently house Children Centres.

The community library model

- 6. The community library model is based on a partnership between the Council and the anchor organisation. The organisation will have responsibility for the repair and maintenance of the building(s) and will be expected to make the venue accessible to users for at least the same number of hours as at present. They must also demonstrate how they will provide community benefits and commit to promoting the love of books and reading.
- 7. The library service provides stock, support and training of personnel working for the anchor organisation, and the equipment required to access library service. A sample Service Level Agreement that describes the relationship between the library service and the anchor organisation is available as Appendix 2. Please note that this SLA is pre-requisite to the lease agreement regulating the transfer of the asset.

8. If Mayor and Council approve the approve the proposal to extend the community library model, a formal procurement exercise will start in which prospective anchor organisations will be asked to formally apply. In this phase, they will be expected to provide evidence of their financial standing, demonstrate their sustainability, and a detailed business plan related to the building(s) they apply to acquire.
